

Talk title: Dr. Sandeep Sathyamoorthy in a Global Practice and Technology Leader for Applied Research and Innovation in Black and Veatch. Sandeep has over 20 years experience in water industry having worked in industry and academia. Dr. Sathyamoorthy's research focus is at the intersection of nutrient management and potable reuse. He is currently the PI for a range BV research projects including pilot-scale optimization of a shortcut nitrogen removal process and codigestion of foodwaste with wastewater derived sludge. In addition, he is the lead process engineer for several nutrient upgrade projects in the US, NZ and HK (SAR). Dr. Sathyamoorthy has a BS in chemical engineering from Cornell University and a Ph.D. from Tufts University.

Dr. Sandeep Sathyamoorthy, Global practice and technology leader for innovation and applied research in Black & Veatch's water business has agreed to speak at the Graduate Seminar on Feb 9 remotely via Zoom. He works from B&V's Walnut Creek office in California.
